

REMARKS

The specification has been amended to make editorial changes therein.

The indication that the claims include patentable subject matter is acknowledged with thanks. In reliance thereon, the claims have been amended solely as to form to place the application in condition for allowance.

The Official Action objects to the form of claims 1-13 and rejects claims 1-13 under §112, second paragraph. These claims have been amended into conformance with U.S. practice (claims 12-13 have been canceled) and reconsideration and withdrawal of the objection and rejection are respectfully requested.

The Official Action objects to the specification and drawings, and rejects claim 5 under §112, first paragraph. Claim 5 has been amended to recite a single connecting bar and the specification has been amended to indicate that the ends of arms 11a and 12a are connected by the bar 23, as shown in Figure 4. Reconsideration and withdrawal of the objection and rejection are respectfully requested.

In view of the present amendment, it is believed that the present application has been placed in condition for allowance. Reconsideration and allowance are respectfully requested.

The Commissioner is hereby authorized in this, concurrent, and future replies, to charge payment or credit any overpayment to Deposit Account No. 25-0120 for any additional fees required under 37 C.F.R. § 1.16 or under 37 C.F.R. § 1.17.

Respectfully submitted,
